Margaret
Dear Ms Reynolds

Thank you for your correspondence dated 20 May 2024 on behalf of your students engaging in the University of the Third Age parliamentary studies course.

Firstly, let me commend you and your students for your clear dedication and passion towards gaining greater knowledge and understanding in Tasmania's democratic governance system. The policy and priorities detailed in your correspondence demonstrate a great insight into how social and economic policies are developed and the strategy behind setting policy priorities.

I am particularly interested in a number of challenges identified by your students, particularly the focus on community engagement to 'bring the public along' with key decisions that are made by government, at all levels, that directly impact the Tasmanian community.

Thank you again for bringing these matters to my attention.

Yours sincerely
